*"After just one
rejuvenation
treatment, my clients
sign up for a series
package...
they can instantly see
the results and the
value"*

*Beth Anne Fischberg,
Esthetician
Stoneham, MA*

vibrational beauty™

THE LATEST TREND IN BEAUTY IS 4,000 YEARS OLD!

INNOVATION

The use of therapeutic light and color is nothing new. Color is how the body communicates on a cellular level, and through the application of color light to targeted meridians, information is fed back to the body. This system includes twelve healing colors which have been researched extensively. You'll find no other device that provides this.

APPLICATION

Easy to learn and apply. ELR™ will compliment and empower your existing services. This technology will set you apart from your competitors by giving you a professional advantage, because of getting more powerful and rapid results.

EDUCATION

Our renowned training, education and support programs provide you with the latest information and techniques. Not only do we provide training for the technology, but you will receive marketing and practice building support on an ongoing basis.

When I compare the income producing ability of the ELR treatments, I can almost double my income in the same amount of time that it takes me to do a basic facial. Microlight is the most leveraged treatment I perform for my clients. We both win! I make more money in less time, my clients see more results and maintain their results while spending less money than they would for a more invasive treatment.

*Barbara Balsamo, Lic. Esthetician
Fairfax, VA*

ELR™ treatments

- Encourage Collagen Production
- Smooth Fine Lines & Wrinkles
- Firms Skin Tone
- Improve Skin Texture
- Diminish Blemishes and Breakouts
- Minimize Puffiness and Inflammation

Beauty Without Surgery, Needles, Redness, Flaking, Downtime or Discomfort

Energy Light Rejuvenation™ (ELR) is the future of skincare technology. Developed according to the principles of Chinese medicine by Darren Starwynn, O.M.D., ELR™ works in harmony with the natural energy systems of the body. ELR™'s exclusive combination of Microcurrent and Therapeutic Light and Color (Microlight) re-educates facial muscles and addresses the underlying causes of visible aging. Imagine, a way to differentiate your business with natural methods by providing beauty from the inside out. This technology is uniquely different from anything else on the market, because of the patented technology where color light is applied to the acupuncture points which has the result of creating whole body rejuvenation. In fact, owners of the ELR report much greater client satisfaction than with other methods. And the best part...getting just four additional appointments a month will have it paid for in a matter of months..

"I have this client that all I had to do was explain what the microlight could do and the benefits of how the ELR works on her face and body, and she bought a package right then and there. Every time I gave her a treatment, she walked out excited and smiling and can't say enough about me to others. (and believe me, she is giving my brochures to everyone she knows). This woman was one step away from seeing a surgeon to have a face lift, and she is so glad she did not choose that option... I love what I do.... Thanks doctor Starwynn for assisting me through your programs and seminars to help me achieve my dream.

*Warmly,
Anna Marie Davis
Esthetician
Capitola, CA*
